

Watsonian Club of Toronto, Annual Report 2019-2020

Toronto Tremors 2020

As we enter the new "Roaring" twenties of this century, I can't help comparing the conditions to a century ago. We were recovering from a pandemic and substantial reorganisation of the world order; there were high times and very low times with the stock market crash at the end of the decade.

To date, the adjective "Roaring" does not fit well, then again, we are early in the decade.

The Toronto (and area) Watsonians still enjoy our annual dinner in the autumn of each year. Although our attendance varies, our good spirits and fond memories of school days in Edinburgh provides a pleasant respite from the daily routines - Roaring is considered optional.
